Opening new doors for opportunity

Speco Access is an embedded browser managed access control system that's an affordable, feature rich and scalable solution. There's no software to be installed, and easily integrates with any of our NR Series recorders. As an out of the box ready integrated system our dealers now can provide value leading capabilities not presently available without a premium investment. Most importantly it is a secure, self-contained system designed to enhance profitability of small and midsized applications.

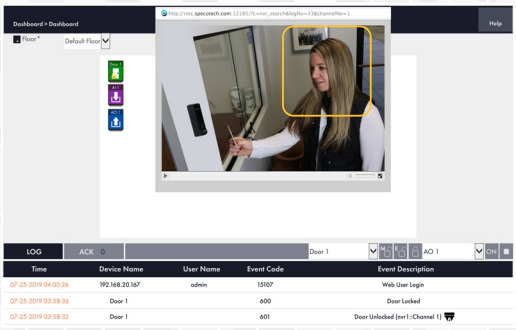
SEAMLESS INTEGRATION WITH SPECO'S NR SERIES NETWORK VIDEO RECORDERS

with 2 Factor Authentication

FACTOR 1



FACTOR 2

**Must use NRE recorder and O2BFRM cameras for this feature, fully configurable*

Use Speco Access as a **first factor** security measure to filter your workplace only letting in visitors with approved credentials. This includes our extensive line of Readers, Controllers and Credentials perfect for any application.

The **second factor** is the use of Speco's Facial Recognition solution that will check a database of your saved faces to see if the visitor is who they say they are.
