ABOUT ARROW

CONNECT TO THE FUTURE

Arrow was founded in 1989 for the purpose of providing quality product solutions to low voltage integrators and the telecommunications industry. Arrow has always been an integral partner of many West Coast businesses, helping them stay ahead of the ever-changing demands of today's technologies.

▣ Arrow is known as one of the largest West Coast independent distributors offering an outstanding selection of product lines from many quality manufacturers in our industry.

▣ Apart from day-to-day business, Arrow is very successful in establishing yearly agreements with major customers and providing solutions with the cutting edge technologies available in the market.

▣ We exceed our customer's expectations time after time by giving our prompt attention and response to every opportunity regardless of the size and complexity.

▣ Each customized program is developed to ensure that the products used by that customer will be in stock when needed. We work with our customer's individual needs rather than use a universal program.

▣ Our customer's success is ensured by Arrow's expertise and broad spectrum of products. Our very energetic and skilled staff is ready to assist you with any technical questions or cut sheets needed for your proposals.

- ▣ Arrow can offer excellent stock availability as a result of our effective manufacturer/vendor relationships. We have three strategically placed locations to service your needs.
- ▣ We offer unconventional partnerships with our manufacturers and customers to create a successful award-winning track record time after time.
- ▣ We plan strategic meetings with our customers to achieve a collaborative understanding that is needed to achieve the most comprehensive solution. We also work closely with our vendor's Technical Field Personnel to make sure these critical goals are accomplished.
- ▣ Arrow's on site customer training and continued education certification programs enhance your success and credibility when competing in the market place.
